

Disconnect Switch Services

Refurbishing disconnect switches of all ratings to like-new condition.

The only shop with the expertise to refurbish disconnect switches of all ratings to like-new condition.

We rebuild the complete asset — live parts, bearings, and operators — not just the wear items.

- Refurbished or new blade and hinge contacts
- Full bearing rebuild or upgrade
- Complete rebuild of both manual and motor operators
- Custom-manufactured components to replace damaged parts discontinued by the OEM
- Proven upgrades and modifications that extend the life of the asset
